

HSSE SHARING

By Iman Razak

Info HSSE Sharing

- Location: Dayang Pertama/Temana Tango
- Date: 27/6/2023 06:40 AM
- Title Of Presentation: Slips, Trips and Fall
- Incident: During rig up lower section of PCE to wellhead, due to the height of the wellhead, observe personnel have to climb the wellhead. Due to slippery wellhead, the personnel slips and fall down. Fortunately, the personnel fell at the clear section where there are no piping or valves.

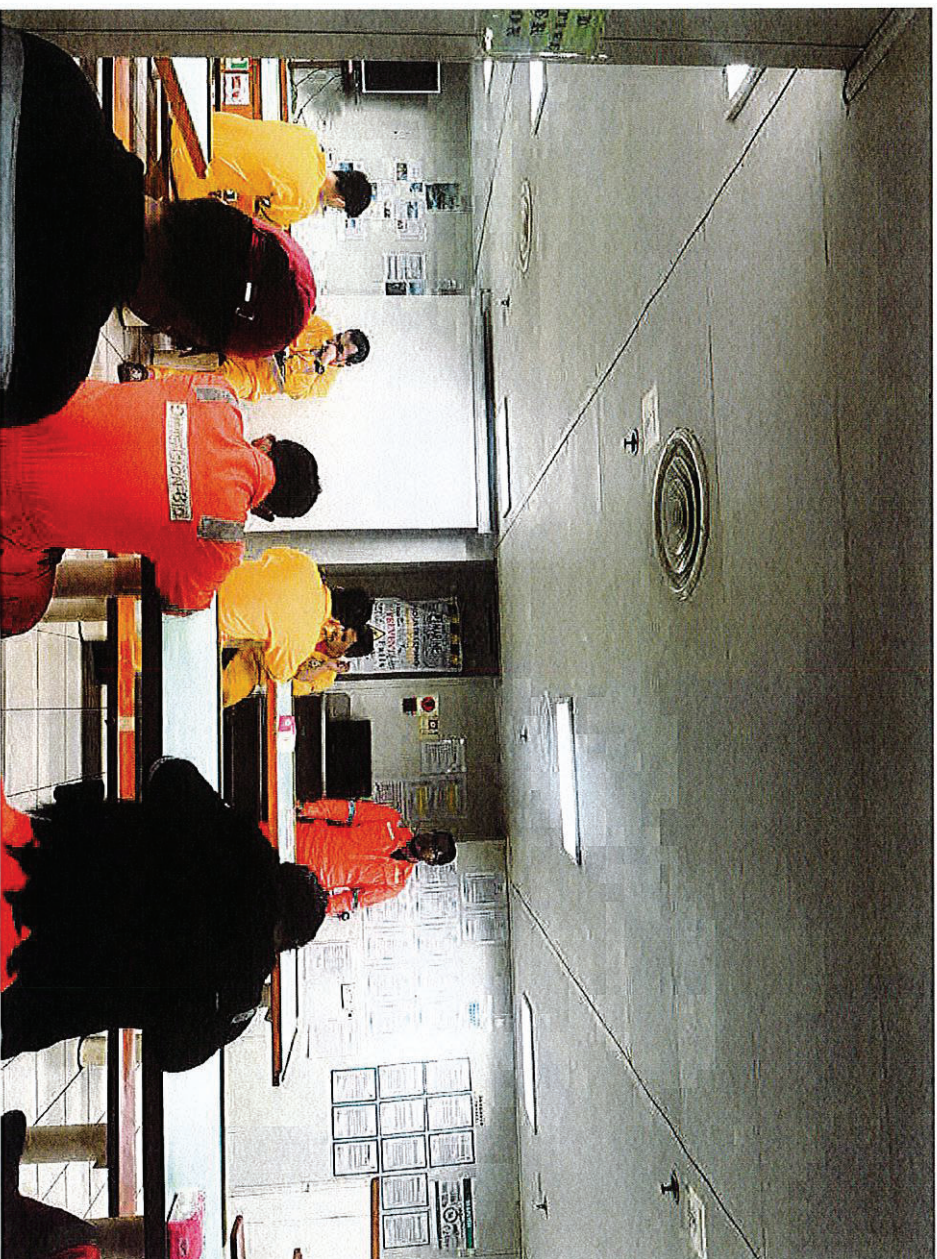

Info HSSE Sharing

✦ Lesson Learnt:

- Always perform housekeeping before and after job execution.
- If the height from ground is more than 5 meters, always wear safety harness.
- Apply buddy system especially when working around wellhead.
- Maintain communication at all times between personnel at main deck and wellhead deck.
