CTS TASK SHEET

Title	Standalone Equipment Operation				
Target Population	Field Specialists & Equipment Operators				
This requirement is applicable to:		JFE		FST	EOT
	✓	FE1	✓	FS1	✓ EO1
		FE2		FS2	✓ EO2
				FS3	✓ EO3

Objective:

The objective of this task is to evaluate and verify the employee's skills and knowledge in operating the following equipment efficiently and independently.

Description		FE1	FS1	EO1	EO2	EO3
1	Batch Mixer	✓	✓	✓		
2	Fluid Pumping Unit	✓	✓		✓	
3	Nitrogen Converter	✓	✓			✓
4	Coiled Tubing Unit	✓	✓			

IMPORTANT NOTE: Please submit one (1) task sheet for each equipment

Tasks:

The employee should complete the following tasks:

NO	TASK	STATUS/DATE	MENTOR NAME/SIGN
1	Fully understand the basic operation as well as safety related issues of the equipment	Completed 20/10/24	
2	Run the equipment in a safe and efficient manner	Completed 20/10/24	
3	Perform pre and post job EMC 1 effectively for the equipment	Completed 20/10/24	
4	Participate in maintenance activity for the unit	Completed 20/10/24	
5	Get the job supervisor's approval to operate the above equipment independently at the location during actual jobs	Completed 20/10/24	
6	Review and agree performance of each task with your Mentor in order to validate its completion	Completed 20/10/24	

M. Wizan

REQUIRED EVIDENCE:

- 1 CTS-FORM-90 Coiled Tubing Performance Assessment Feedback
- 2 EMC 1 for the specified equipment

☐
☐

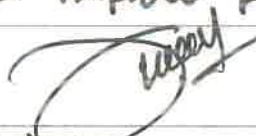

DIMENSION BID

CTS TASK SHEET

MENTOR / ASSESSOR'S FEEDBACK:

NO	TASK	FEEDBACK
1	The employee demonstrates good knowledge of the design and the functions of the equipment and its components	Exceeding right to excellent good knowledge.
2	The employee understands the basic operation as well as the safety related issues	understand basic operation for CTU
3	The employee demonstrates required skills and knowledge to perform pre and post job EMC 1 effectively for the unit	good knowledge to carry perform EMC on equipment
4	The employee is ABLE to operate the Batch Mixer / Fluid Pumping Unit / Nitrogen Converter / Coiled Tubing Unit STANDALONE in actual jobs [please circle the relevant equipment] Note: Please specify the job supported by CTS-FORM-90 Coiled Tubing Performance Assessment Feedback	Employee can operate all equipment as per mention

OVERALL SCORE	STRONG			ADEQUATE			IMPROVEMENT NEEDED		
	10	9	8	7	6	5	4	3	2

MENTOR / ASSESSOR's Comments & Recommendation: Personnel has a good energy / skills / knowledge, understand step of operation good in maintenance equipment / operated on Bmx/SSS/NCV. Please improve for calculation for knowledge improvement			
Signature		Assessment Date	20/10/2024
Name	M. WIZAR	Position	CTS FS 2

FSM / OM Comments & Recommendation: - Demonstrate a good understanding regarding single pump. - Able to operate single pump standalone - Able to perform maintenance on single pump standalone.			
Signature		Assessment Date	31/1/24

COILED TUBING PERFORMANCE ASSESSMENT FEEDBACK

PART 1: To be completed by Assessor [WEIGHT: 40%]

Name	MUHAMMAD ALIFF BIN ZULKEFLI	COB Date	10-Okt-23
Position	EQUIPMENT OPERATOR 2	RTB Date	03-Okt-23
Client	PCSB	Location	DULANG
Platform	DULANG CHARLIE	Well	C 24L
Assessed By	Name: MUHAMMAD WIZAN	Position:	SUPERVISOR COIL TUBING

RATING LEGEND:

STRONG	Performance consistently exceeded expectations in all essential areas of responsibility, and the quality of work overall was excellent
ADEQUATE	Performance consistently met expectations in all areas of responsibility, at times possibly exceeding expectations, and the quality of work overall was very good
IMPROVEMENT NEEDED	Performance did not consistently met expectations - performance failed to meet expectations in one or more essential areas of responsibility

Assessment Criteria	Rating (Please ✓ where appropriate)
---------------------	-------------------------------------

Safety Awareness (20%)

- a. Usage of Personal Protective Equipment
- b. Participation in UAUC
- c. Understanding of PTW System
- d. Worksite House Keeping

Y	N	Checklist																																																																																																																																																																																																																																																																																						
Appearance & Safety Equipment:																																																																																																																																																																																																																																																																																								
<input checked="" type="checkbox"/>		Ensure unit appearance good and clean																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Verify that all earth/ground cables are in place, well connected																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Skid condition - visually check for any damage																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Fire extinguisher is present and certified																																																																																																																																																																																																																																																																																						
Cooling System:																																																																																																																																																																																																																																																																																								
<input checked="" type="checkbox"/>		Coolant level & condition																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Check visible leaks																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Radiator hose & clamp condition																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Perform visual and physical check on radiator fin																																																																																																																																																																																																																																																																																						
Engine:																																																																																																																																																																																																																																																																																								
<input checked="" type="checkbox"/>		Check engine oil level (SAE 15W-40) not be milty or too dark																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Check any general leaks on all filter, hoses, and connectors.																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Check fan, hub, fanbelt condition/tension																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Check condition of engine hoses																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Check for rusted part- repair/repaint if required																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Check the crankcase vent system for excessive blow by																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Check engine mounting condition - tight any loose bolt																																																																																																																																																																																																																																																																																						
Controls / Instrumentation:																																																																																																																																																																																																																																																																																								
<input checked="" type="checkbox"/>		Normal kill and emergency kill tested																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Check converter lock-up (if applicable)																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Check all gauges are in good condition and working																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Check (Rate+RPM) and (Pressure+OPS) condition																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Throttle control in good condition																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		OPSD tested																																																																																																																																																																																																																																																																																						
Exhaust System:																																																																																																																																																																																																																																																																																								
<input checked="" type="checkbox"/>		Pipework - check for any leak or damage																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Condition/Operation of exhaust flapper																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Condition of exhaust wrap are in place and in good condition																																																																																																																																																																																																																																																																																						
Transmission, PTO & Drivelines:																																																																																																																																																																																																																																																																																								
<input checked="" type="checkbox"/>		Sight glass/dipstick shows in full (SAE 90)																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Start & idle engine (5- Min) recheck oil level																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Listen for excessive noise at PTO																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Condition of transmission hoses & fittings																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Grease U-joint & propeller shaft																																																																																																																																																																																																																																																																																						
Hydraulic System:																																																																																																																																																																																																																																																																																								
<input checked="" type="checkbox"/>		Check hyd. hoses/valve/connections undamaged and clean																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Hyd.tank - drain any water																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Check hydraulic oil level (2" from top) (Tellus 46)																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Check hydraulic gauges																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Check condition of fittings & couplings																																																																																																																																																																																																																																																																																						
Fuel System:																																																																																																																																																																																																																																																																																								
<input checked="" type="checkbox"/>		Check for any water contamination in the fuel filter sight bowl																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Check fuel tank breather cap condition																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Check for leaks on fuel lines, connections, and hoses																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Fuel filter - check condition																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Fill up the diesel tank to 90%																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Drain 1 litre fuel from drain valve																																																																																																																																																																																																																																																																																						
Y	N	Checklist																																																																																																																																																																																																																																																																																						
Air System:																																																																																																																																																																																																																																																																																								
<input checked="" type="checkbox"/>		Check visible leaks																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Gauges in good condition																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Air reservoir /tanks - drain any water until that are clean																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Air hose connections, piping, valves and actuators condition																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		All pneumatic control valve working properly																																																																																																																																																																																																																																																																																						
Air Cleaner:																																																																																																																																																																																																																																																																																								
<input checked="" type="checkbox"/>		Check the element for water or soot and clean as required																																																																																																																																																																																																																																																																																						
Electronic Recording & Monitoring Devices:																																																																																																																																																																																																																																																																																								
<input checked="" type="checkbox"/>		Check all sensors condition																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Check pump controls, rate and pressure devices.																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Cables/connectors condition																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Acquisition - check communication with software/hardware (if applicable)																																																																																																																																																																																																																																																																																						
Zone II System:																																																																																																																																																																																																																																																																																								
<input checked="" type="checkbox"/>		Flame traps - check cleanliness																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Air intake valve (flapper) - check condition																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Spark arrestor - check condition																																																																																																																																																																																																																																																																																						
Power End & Chain Case:																																																																																																																																																																																																																																																																																								
<input checked="" type="checkbox"/>		Check power end oil level & condition (SAE90)																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Check chaincase oil level / Leaks (SAE40)																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Grease chaincase bearing																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Check hoses conditions for any leak																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Check condition of breather																																																																																																																																																																																																																																																																																						
Fluid End:																																																																																																																																																																																																																																																																																								
<input checked="" type="checkbox"/>		Check plungers condition. Plungers tight to pony rod.																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Pressure sensor in place																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Check plungers lubrication																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Check lubrication (packing tank oil level)																																																																																																																																																																																																																																																																																						
C-Pump & Piping:																																																																																																																																																																																																																																																																																								
<input checked="" type="checkbox"/>		Check C-Pump operation and record shut in pressure (>25 psi)																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Grease butterfly valve																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Check piping conditions and remove any dirt																																																																																																																																																																																																																																																																																						
System Pressure:																																																																																																																																																																																																																																																																																								
<input checked="" type="checkbox"/>		Fuel pressure @ idle speed psi																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Fuel pressure @ 1800 RPM psi																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Oil pressure @ cold start 150 psi LAB																																																																																																																																																																																																																																																																																						
<input checked="" type="checkbox"/>		Oil pressure @ 180deg F 150 psi 60																																																																																																																																																																																																																																																																																						
Certifications:
