

JFE LEARNING MODULE		DIMENSION BID
TASKSHEET 02 - HSE		
OBJECTIVES		
Upon completion this task you should be able to:		
THEORY		
1	List down the hazards and risk involved in CHS	/
2	Define explosives in terms of wireline operations and explain why explosives are used in wireline operations.	/
3	Define the following terms: High Explosives, Low Explosives, Primary High Explosives and Secondary Low Explosives and tell where and how each are used	/
4	Define Pressure, and dangers associated with pressure.	/
7	Describe the procedures for working with pressure	/
6	Explain in which cases require logging with pressure equipment.	/
8	Define Radiation, sources and its effect.	/
9	Describe what is ALARA.	/
10	Explain on the function of the Survey Meter and Dosimeter.	/
11	Define risk management and the importance of it. Define term Hazard + Activity = Risk	/
12	Define terms: Prevention Measure, Mitigation Measure, Management of Change (MOC), Exemption	/
13	Explain the purpose of Job Safety Analysis (JSA) and Permit to Work (PTW)	/
<div style="display: flex; justify-content: space-between; align-items: flex-end;"> <div>Grade: <u> A </u></div> <div>Supervisor Signature:  M. H. D. ARIFIN</div> </div>		
PRACTICAL		
1	Attend explosive Level 1 with PEXs.	
2	Pick a topic for Safety meeting in the base.	/
3	Raise and explain one safety suggestion for the base.	/
4	Review and understand all aspects of the explosives placard	/
5	Locate the pressure equipment in your location and explain the use of pressure equipment in CHS operations.	/
6	Locate and describe all types of radioactive sources found in the location with respect to strength, composition and storage requirements	/
<div style="display: flex; justify-content: space-between; align-items: flex-end;"> <div>Grade: <u> A </u></div> <div>Supervisor Signature:  M. H. D. ARIFIN</div> </div>
